A Welcome Letter from the Principal

Dear Student-Athletes, Parents, and Coaches

On behalf of the entire Athletic Department, I welcome all students to participate in our interscholastic sports programs. Athletics can and often does provide extremely valuable life-long lessons and helpful features for preparing our youth to enter the adult world that awaits. Skills in time management, team building, following directions, working hard, motivation, emotional development, and problem solving all become important with your involvement as a student-athlete.

The Harmony Athletic program competes in the PIAA (Pennsylvania Interscholastic Athletic Association) and more specifically the District 6 as well as Moshannon Valley League. All rules and regulations handed down by these governing bodies will be adhered to at all times. I thank our athletic director, Mr. Mark Gobert, for being the back-bone in adhering-to and knowing the ambitions of the PIAA and for helping to make our programs successful here at Harmony. I also thank our very dedicated and informative coaches in the junior high, junior varsity, and varsity programs for enriching the lives of our student athletes!

Athletes, please remember that all coaches, the athletic director, and the administrators are here for you. As a student-athlete, you have academic and athletic responsibilities. Study, work hard in class, practice hard, and take pride in always doing your best work so that you represent our school district in a first class type of manner! Our goal is to have a highly competitive athletic program that focuses on learning/respecting the sport and overall sportsmanship.

Let's GO Owls and Lady Owls in 2020-2021!

Douglas J. Martz
Principal

Purpose of the Athletic Handbook

This handbook has been prepared to provide a reference under which the athletic programs of the Harmony Area School District are to be organized, administered, and supervised. All staff members in the athletic programs are expected to know the provisions of this handbook and are to adhere to their responsibilities. The policies and procedures set forth will continually be evaluated so that the athletic programs can be improved.

Harmony Area School District Athletic Chain of Command

The Board of Education establishes policy with regards to the athletic programs of the Harmony Area School District. The following policies shall provide guidelines for the overall administration of the athletic program. In cases where action must be taken and the School Board has not provided guidelines for administrative action, the Superintendent shall have the power to act and the action of the Superintendent shall be presented to the school board at its regular meeting to alert the board of the need for policy.

- The School Board accepts the Constitution and By-Laws of the (PIAA) Pennsylvania Interscholastic Athletic Association and delegates the High School Principal to be responsible in all matters pertaining to interscholastic athletics.
- The District Athletic Director oversees the day to day operation of the athletic program and reports to the High School Principal on all matters relating to the Athletic Program
- Varsity Head Coaches are to maintain the program fidelity for the sport that they are coaching and report directly to the Athletic Director
- JV Coaches, Jr. High Coaches, Assistant Coaches and Volunteers should plan their programs in collaboration with the Head Varsity Coach for the sport in which they are coaching
 - All correspondence relating to athletics should be brought to the attention of the Varsity Coaches, followed by the Athletic Director, followed by High School Principal.

Coach Evaluations

All head coaches will be evaluated by the Athletic Director using the attached evaluation form. Evaluations will be completed within two weeks, after the last game of the season has been played.

Head Coaches are to evaluate assistant coaches and any volunteers that helped during the season.

All varsity level coaches will provide written feedback to the Athletic Director on junior level coaches that work within the same sport.

Philosophy of Athletics

The athletic program is an integral part of the educational process of the Harmony Area School District, which promotes a greater desire in the student body and community to take an active part in our sports program either as participants or spectators. Our aim is to develop highly competitive athletics, but not to lose sight of educational values such as sportsmanship, health, scholastic attainment, etc. The program is to occupy a position in the curriculum comparable to that of other subject or activities and is to aid in promoting school morale. It is a student activity, participated in by students, and arranged for the “benefit of the students.”

Objectives of Athletics

Contests should have as their chief purpose friendly rivalry, new friendships, playing skills, good sportsmanship and improved community relations. The specific objectives for athletics are:

- Opportunity to learn games to improve playing skills.
- Development of physical vigor and desirable habits in health, sanitation, and safety.
- Opportunity to make real friendships with squad members and widen circle of friends by acquaintance with members of opposing teams.
- A chance to observe and exemplify good sportsmanship.
- Realization that athletic competition is a privilege that carries definite responsibilities.
- A chance to learn that violation of a rule brings a penalty and that this same sequence follows in the game of life.

School and Student Objectives:

1. Athletics should occupy a position in the curriculum comparable to that of other subjects or activities.
2. Athletics should be educational.
3. Athletics should be used to promote school morale.
4. Proper student interest should be created.
5. All visiting schools should be treated with respect.
6. The school policy should be definite, so that athletes will not expect special privileges.
7. Sportsmanship, fair play and good school citizenship should be objectives of all athletics.

Community Objectives:

1. The community should realize that control of and responsibility for school athletics rests entirely with the school authorities.
2. The school athletics should furnish a recreational opportunity for general public in so far as a community is willing to see that the program is conducted solely for the benefit of student competition and student spectators.
3. The community should judge success of the season on the number of participants and spectators, new skills acquired and good citizenship and sportsmanship taught, rather than on the number of games won or lost.
4. The community should constantly keep in mind the fact that primarily, an athletic contest is part of a school program.

General Policies

- Practice sessions and games are to be scheduled so as not to interfere unduly with the regular school programs.
- Practice sessions must be of the intensity and duration compatible with the physical limitations of the players and within the guidelines of P.I.A.A.
- The program must be designed to promote desirable school citizenship and sportsmanship for both the participants and spectators.
- The athletic program will supplement and not supplant the physical education, intramural and recreation programs.
- The program shall be so organized and supervised so that the player's physical and mental welfare is protected and fostered.
- Ample training periods shall be provided before actual participation in competition begins.
- The general welfare of the student shall be paramount in determining whether or not permission is granted to participate in athletics.
- No student will be permitted to participate in a second sport until all equipment from the previous sport has been returned or payment has been made.
- If a coach willfully or persistently violates school policy regarding athletics, he/she shall be required to explain his/her actions at a hearing with the Principal, Athletic Director, and Superintendent. If the coach's violation(s) are sustained by the hearing body, the coach may be suspended until a hearing is held before the school board.
- The number of participants in each sport/activity and the availability of a coach will determine whether or not a sport will be offered during the school year.
- Every coach and student will be educated on concussion awareness.
- All coaches and volunteers that conduct practices and work with students must be board approved to do so.

Pre-Season Policies

Participation – Students in grades 7-9 may participate in junior high activities with the following exceptions:

- If the age of 17 is attained before the start of the new school year (July 1) the student must participate in the senior high programs.

A student may, at his/her expense, be examined by their own family doctor who shall complete and sign the physical form. The student shall obtain the physical form from the school and return it to the school after the doctor has completed the examination.

Orientation Meeting – An orientation meeting shall be held with all players prior to the first practice, in accordance with P.I.A.A. regulations, to explain expectations required of each player.

- Written notice of such meeting must be turned into the Athletic Director prior to starting practice using the attached Orientation Meeting form.

Equipment Issued – All equipment issued to athletes shall be recorded on a School Property Issuance Form and signed by the player. The form will be filed by the coach and returned to the player when the equipment has been returned to the coach. A student is permitted to be tardy one time as described in the student handbook prior to not being able to participate. If a student is excessively tardy to school following game days; it will be assumed that the student cannot meet the demands of the schedule of games and therefore be removed from a member of the team. Doctor excuses must be turned into the high school office upon returning.

Each coach will have an emergency procedure card from each parent on file for each player. Emergency Procedure Cards should be part of the equipment taken to away games. All injuries must be reported to the Athletic Director using the Accident/Injury form. The Athletic Director will then provide a copy to the High School Principal and Nurse for review. Any injury that requires medical treatment is to be turned into the Athletic Director or High School Principal as soon as possible after the injury.

Co-op Sports – Any student participating in a co-op sport is expected to participate the entire season. If for any reason a student quits or is removed from a team after the first game is played, the player will be responsible for reimbursing the school district for 100% of the required fee that was paid for the student to be able to participate in the sport. The fees are set on a year to year basis and will be communicated by the Athletic Director to interested participants and parents.

Letter certificates, awards and jackets will be distributed at this time. An awards program may be offered to all 7-12 athletes by the Sports Boosters if they choose to sponsor one.

Coaches are permitted to recognize students in the following four areas:

- MVP – This is to be determined by a vote of all players as well as the coach
- Offensive Player of the Year – Based on statistics (must be turned into the A.D.)
- Defensive Player of the Year – Based on statistics (must be turned into the A.D.)
